Turn 14

Turn 14 Distribution is a Performance Warehouse Distributor with distribution facilities strategically located in Hatfield, PA, Arlington, TX, Reno, NV and , and Indianapolis, IN. Turn 14 Distribution's strategy consists of catering to niche vehicle markets, along with stocking its partner manufacturers' full product lines for quick order fulfillment. Turn 14 Distribution's up-to-the-minute online inventory tracking, efficient forecasting, and dedicated Customer Support Department allow the company to cut lead times and keep its customers informed about product fulfillment.

Mecka's integration with Turn 14 Distribution allows authorized customers to receive inventory updates every 15 minutes and pricing updates daily to keep stocking quantities accurate in near real-time, allowing authorized customers to list products when low quantities are available and eliminate out of stock sales occurring in Marketplaces and their B2C shops.
